

Christmas is coming (and so is O2)

Description

If there's one thing that can make Christmas shopping a little more bearable, it's a decent soundtrack (and we're not talking about Jingle Bells). For O2 Czech Republic's latest commercial we selected something a little more contemporary that won't have you sticking tinsel in your ears every time you hear it: Klischö's sassy, swing-house number, "Tin Tin".
