

McSundaeâ??s sweet Sixties treat

Description

With an escalating swelter in Berlin, we must admit thereâ??s mostly one foodstuff on our mind. And McDonalds present it in all its mouth-watering glory: a closeup on its ice-cold ice cream McSundae,

amid a kinetic, pastel-hued tour through all the places you could enjoy one this summer.

Connecticut rockers The Roadrunners provide the tangy complement to the Super 8-tinted McSundae antics â?? deliciously fuzzed-up, gamey-eyed but goodhearted late-60s rock. Their 1966 single â??L.U.V.â?? has lashings of post-Kinks, pre-Summer of Love swagger and a suitably sweet hookline for these creamy treats.
