

The new Mazda MX 5 and the sound to their road trip

Description

Fulfilling the daily tasks list can be quite dull. But maybe it is just the way how you get them off that list. For Mazda, and their latest version of their evergreen convertible Mazda MX 5 it just creates new reasons to drive.

In their brand new commercial the hero's journey to get a bottle of milk takes him to a long distance trip to experience the driving pleasure of sunshine and airstream.

We paired this road short movie with a catchy Rock tune by Vampire Blow. Enjoy!
