

Our Latest Sync License: PZU

Description

It's the simple things in life that make you smile in the newest advert from Polish insurance group, PZU, which includes an equally light sync license.

In PZU's latest advert, drivers meet various obstacles that make them smile. A mother duck and her ducklings trying to cross the road, the hilarity of trying to transport a mattress on the roof of a sports car, and sharing a smile with the neighbouring car in a traffic jam, which in this case happens to be a very unhappy little girl.

For an upbeat and sweet melody, we sync licensed the track *On the Road Again* by Swedish and

Danish duo My Empire of Sound. The song offers a quirky and pleasant distraction for those forgetting their car troubles.
