

Tracks & Fields's work for OTTO wins Bronze at Clio Awards

Description

After [winning the gold medal for best music at Golden Awards](#) in Montreux as well as the [silver medal for "Best Use of Existing Music"](#) at ADC earlier this year we are proud to announce that our work for OTTO's Christmas campaign "Most precious gift" takes home a further award – the Bronze medal – at this year's Clio Awards.

The emotional animated film did not only win on the music side, but was also awarded with Bronze in the animation category.

To support the message of celebrating the time with the loved ones as well as the beautiful imagery, we synch licensed Cyndi Lauper's work "Time after time" and re-recorded it in a reduced choir, piano and string version.
