

â??Ronny & Klaidâ?? world premiere screening tonight at Filmfest Munich

Description

The world premiere of new comedic crime caper, ***Ronny & Klaid***, takes place tonight as part of the **Filmfest MÃ¼nchen** programme.

The film marks the directorial debut of Berlin-born actor and producer **Erkan Acar**, whose breakthrough came last year when he played the lead role in the independent film ***SchneeflÃ¼ckchen***. Now taking a role behind the camera, **Acarâ??s** direction of **Arend Remmersâ??** screenplay guides the colourful film through the ups and downs of the filmâ??s titular lead characters, Ronny and Klaid.

They are two good-hearted scoundrels who run â?? or *try* to run â?? a 24-hour shop in the heart of **Berlin**. When one falls in love with the daughter of the local casino godfather, and the other loses a fortune to him, they concoct a plan to kidnap a millionaire to solve all of their problems. Of course, hilarity ensues!

Our work with this production consisted of placing three songs featured in the final cut soundtrack.
