MARC TANZMANN ??? Head of Music / Music Supervisor

Toto ??? Africa?? 1982

I donâ??t have anything particular to say except that a party without this song is not a party.

ANNA MURAKAMI ??? music production coordinator

Ariana Grande feat. Zedd ??? Break Free?? 2014

I play this songs when I want to sing out loud without thinking about anything!

Velvet Du ??? Music Project Manager

Camila Cabello ??? Havana ??? 2018

Itâ??s such a poppy song. I believe she is the first ever Latina female to open the Grammy Awards, and sheâ??s still so young. Hooray for diversity!

HATTIE LONG ??? Music Researcher

Ariana Grande ??? God Is A Woman?? 2018

How deeply I love Ariana Grandeâ??s album *Sweetener* has almost become a running joke in the office, but it is genuinely excellent. This song is one of many absolute bops, perfect for screeching around the house when your flatmate is out.

DANIEL FINNEGAN ??? Music Researcher

Savage Garden ??? Truly Madly Deeply?? 1997

There are so many I could choose, but this is a total banger.

CHRISTINE KAKAIRE ??? Marketing Content Writer

Britney Spears ??? Toxic?? 2004

I have (almost) no shame in saying this is one of the greatest pop songs ever made.

Marielle Suffrin ??? Intern

Justin Bieber ??? Baby?? 2010

Please donâ??t judge me! The lyrics arenâ??t great but I just pay my attention to the melody, which I

really like.
