

Tymbark spread the love in their Christmas ad

Description

Tymbark's Christmas campaign emphasises the importance of **acts of love and kindness** all year round, not just at Christmas. The motivational messages inside the caps of Tymbark bottles in the film become one of many ways that family members show each other that they care.

We licensed **Sleeping At Last's** cover of **Love Is All Around** to really drive the point home and provide a gentle, moving backing to the small gestures of familial love. The track originally appeared on the band's self-released Christmas compilation in 2012.

Take the time to show your loved ones some appreciation this Christmas, just donâ??t forget to do it the rest of the year as well.
