

Member Spotlight: China Bears

Description

Weâ??re shining another one of our **member spotlights** on **China Bears**. You might recognise their heartfelt indie stylings from our recent work on [FILAâ??s Tennis & Golf campaign](#), which features their track **â??Sundayâ??**. The band told us a bit more about the inspiration behind the song and provided some insight into their gig routine with a **Pre-Show Playlist**.

â??Sunday was inspired by a particular Sunday afternoon where you realise you have reached the tipping point in processing how fast life can move sometimes.

It's a song about realising the importance of the people around you and how sharing your worries is a vital and human thing. But we like people to make their own interpretations too. •
