

Harper's Bazaar ooze Italian elegance with singer-songwriter Alberto Mussi

Description

Fashion magazine **Harper's Bazaar** are internationally renowned as harbingers of the latest trends. For the film promoting their latest issue in Kazakhstan we sourced and licensed a track by Italian producer and singer-songwriter **Alberto Mussi**.

The strong lines and muted colour pallet of the shoot are contrasted by the warmth and elegance of **Instanti**. The gentle guitar and smooth Italian vocals provide the film with a classic feel to match the classic styles on show. The track's stripped back arrangement and the sparsity of the setting allow the models and the clothes to take centre stage.
