

VW celebrate the fearless with new campaign for their Teramont SUV

**Description**

VW's latest campaign for their new Teramont SUV invites us to celebrate those who chose to live fearlessly. An all-terrain SUV for all-terrain people.

We worked to license the track "Walk By Giants" by Matt Beilis which you can hear for background of the Terramont dominating every terrain: from city to the desert.

You can watch the Teramont ad and listen to Matt's powerful song here:
