

Mercedes celebrates next level of automated driving

Description

Fist Bump ✓

Mercedes-Benz just announced the release of their new level 3 conditionally automated driving feature, and to celebrate, they’ve licensed the famous hit “Hands up” by Ottawan for the accompanying commercial.

With this new feature, drivers can almost do everything with their hands off the wheel, making driving more convenient and comfortable than ever before. Thanks to DRIVE PILOT, this new level of automated driving is possible, and we’re excited to see what the future holds for Mercedes-Benz.

“Hands up” by French Pop music duo Ottawan was one of the group’s greatest hits. Released in 1981, the song reached top 10 chart success across Europe and number 1 in New Zealand.
