

Porsche celebrates its 75 years of chasing dreams.

Description

For its 75 anniversary Porsche made it with a retrospective film called "Chasing dreams for 75 years" that illuminates the present and future of automobile design. In collaboration with agency BBDO Germany it's an homage to what once was only a dream: Ferry Porsche's 1948 dream of a sports car, the 356 No.1 Roadster.

At Tracks & Fields we are super thrilled to be part of this campaign: after an exhaustive music supervision process with agency working with their reference, we cleared the song for this flamboyant adventure: being the lucky one "Otherside" by Perfume Genius a Seattle band led by singer, songwriter, and movement artist Mike Hadreas.
