

Maruti Suzuki launches new Invicto with “The League of Extraordinary”•

Description

Driven by the concept “Crafted for the extraordinary and inspired by the exclusive”, Maruti Suzuki is presenting the new Invicto with “The League of Extraordinary”. An exquisite commercial, shot in beautiful locations in the city of Vienna, directed by Joachim Zünke was produced by MatchBox Pictures.

This project was quite a wonderful creative journey. The music started with a song we proposed by a very talented composer who ended up re-working into something completely new to then be played by a live orchestra.
